PROFESSIONAL SUMMARY

Computer Science and Engineering professional with practical experience in software development, backend engineering, database-driven applications, and intelligent software solutions. Proficient in Python, Java, C++, JavaScript, Flask, and MySQL, with experience developing end-to-end applications, integrating APIs, and implementing automated workflows. Built multiple projects spanning application development, analytics, AI-powered services, and database management. Improved backend throughput by 20% during internship experience at MNNIT Allahabad. Interested in Software Development Engineer and entry-level software engineering opportunities.

TECHNICAL SKILLS

- **Programming**: C++, Python, Java, JavaScript
- **Backend Development**: Flask, REST APIs, Java Servlets, JSP
- **Database Systems**: MySQL, MongoDB, SQL
- **Web Development**: HTML, CSS, JavaScript, Chart.js
- **Software Engineering**: Object-Oriented Programming, Application Development, API Integration, Database Management
- **Development Tools**: Git, GitHub, Jupyter Notebook, Google Colab
- **Additional Technologies**: TensorFlow, Scikit-learn, OpenCV, Gemini API, Google Maps API

SELECTED DATA & ANALYTICS PROJECTS

Room Allocation Tool | Java & MySQL | 2023

- Designed and developed a Java desktop application for automated student room allocation.
- Integrated MySQL for persistent data storage and database synchronization.
- Implemented allocation workflows supporting 100+ students.
- Reduced manual allocation effort by approximately 95%.

FIR Legal Assistant - LexHack | Software Development & AI Integration | 2025

- Developed an FIR lodging assistance application using Python and Flask.
- Integrated Google Maps API for location-aware functionality.
- Incorporated Gemini AI for intelligent assistance.
- Received the Innovation & Impact award from the hackathon evaluation panel.

Retail Analytics Dashboard - Vishleshan | Full-Stack Development | 2023

- Built a full-stack retail dashboard using Flask, MySQL, and Chart.js.
- Developed backend functionality for sales data retrieval and visualization.
- Presented the application to 200+ industry experts at Bennett University.

Fake News Detection Application | Python & Flask | 2025

- Developed an end-to-end application integrating machine learning classification and sentiment analysis.
- Implemented TF-IDF feature extraction and Random Forest classification.
- Achieved 87% validation accuracy.
- Presented the research at SocProS-25, IIT Roorkee.

Amazon Stock Price Prediction | Python | 2025

- Developed forecasting solutions using ARIMA, LSTM, GRU, and Transformer architectures.
- Achieved RMSE of 0.03285 in forecasting experiments.
- Implemented a custom multivariate TimeSeriesTransformer.

Fog Detection Using Hybrid Deep Learning Models | 2025

- Developed a computer vision research prototype using CNN and Vision Transformer architectures.
- Integrated OpenCV for image processing and inference.
- Reported a 15% improvement in accuracy on real-world haze datasets.

PROFESSIONAL EXPERIENCE

Software Intern | MNNIT Allahabad | 2024

- Developed REST APIs for academic services using Flask.
- Improved backend throughput by 20%.
- Collaborated with development team members through Agile sprints.
- Contributed to backend functionality and API integration.

RESEARCH & PUBLICATIONS

1) Fake News Detection Using Machine Learning and Sentiment Analysis Integrated in a Flask Web Application.

Springer Nature, Real-World Applications of Machine Learning, 2026.

DOI: https://doi.org/10.1007/978-981-95-7134-5_23

Earlier Conference Contribution: SocProS-25, Soft Computing for Problem Solving, IIT Roorkee, 2025. Book of Abstracts, page 90.

2) Fog Detection Using Hybrid Deep Learning Models: A Multi-Modal CNN-LSTM Approach.

IEEE ICCCA, 2025.

DOI:10.1109/ICCCA66364.2025.11325690

ADDITIONAL RESEARCH EXPERIENCE

Blockchain in Autonomous Vehicles | Bennett University | 2024

- Simulated blockchain protocols for autonomous vehicle communication.
- Evaluated security mechanisms against spoofing threats.

CERTIFICATIONS

- NVIDIA - Fundamentals of Deep Learning
- IBM - IBM Machine Learning Professional Certificate
- Google Cloud - Introduction to Generative AI
- IBM - Generative AI Fundamentals
- IBM - AI Foundations for Business
- Google - Google Data Analytics Professional Certificate
- IIT Delhi - Quantum Computing & QKD

EDUCATION

B.Tech. - Computer Science & Engineering

Bennett University | 2022–2026 | CGPA: 8.26

Class XII - CBSE | 2021 | 92.4%

Class X - CBSE | 2019 | 85.8%

Maharshi Patanjali Vidya Mandir
